

Dear Caroline,

You remember of course the circular dispersed by the N.Y. City Socy in 1840 urging persons out of the Society to join it in order to outvote Garrison &c & adding the (garbled) qualifications of membership - it is upred to in the Rept of Am A.S. by Child in that year - Now it is necessary to have that, ipsissimis verbi, for Quincy's reply to Tappan M.W.L. has it not I can't find it either in the Lib or Standard - of that year - Can you refer me to it or get it for

for me - If so do a

a loan as you can

with

Yr

W Phillips

Handwritten text, likely a list or series of entries, consisting of several lines of small, dark markings or characters. The text is faint and appears to be written in a cursive or shorthand style. The markings are scattered across the upper portion of the page, with some appearing as small dots or dashes and others as more complex, connected strokes.
